#### 6. ACQUISITIONS AND DISPOSALS OF BUSINESSES

#### 6.1 Acquisitions during the current year

6.1.1 On 30 June 2010, the Virgin Money South Africa (Proprietary) Limited (VMSA) joint venture arrangement was terminated. This was based on a contractually agreed arrangement whereby, depending on the financial performance of the joint venture, its future existence will be determined. Due to the underperformance of the joint venture the arrangement was terminated and the Bank acquired the underlying business. The termination resulted in the Bank selling its 50% interest in VMSA for R1, while acquiring VMSA's credit and home loan business for R1. VMSA's credit card and home loan business contributed a net profit before tax of R40 million and revenue of R57 million to the Bank for the period from 30 June 2010 to 31 December 2010. If the acquisition occurred on 1 January 2010, the Bank's revenue would have been R116 million higher and the net profit before tax for the year would have been R21 million higher.

The consideration paid was less than the fair value of the assets and liabilities acquired. This resulted in a gain on bargain purchase of R1 million which was recognised in other operating income in the statement of comprehensive income.

As at 31 December

## 6. ACQUISITIONS AND DISPOSALS OF BUSINESSES (continued)

#### 6.1 Acquisitions during the current year (continued)

This bargain purchase gain arose primarily due to the under performance of the underlying VMSA credit card and home loan portfolio. Any transaction costs associated with the transaction were expensed when incurred. No contingent liabilities were recognised as a result of the acquisition and no contingent consideration is payable. No identifiable assets were identified of which the fair values could not be reliably measured. No material receivables were acquired as part of the transaction.

As part of the termination of the joint venture arrangement the Bank entered into a separate agreement with Virgin Enterprise Limited to sell Virgin branded credit cards and home loans in the market on which the Bank will pay a fee for the use of the Virgin brand name.

#### 6. ACQUISITIONS AND DISPOSALS OF BUSINESSES (continued)

#### 6.1 Acquisitions during the current year (continued)

6.1.2 Absa Bank Limited, previously had a 50,0% share in the preference shares of Sanlam Home Loans (SHL), the holding company of three securitisation vehicles. The investment in SHL has previously been equity accounted as the Bank and Sanlam Life Insurance Limited (Sanlam) had joint control over SHL. On 1 August 2010, the Bank acquired the remaining 50,0% preference shares in SHL, which resulted in the Bank controlling and consolidating SHL. SHL contributed a net profit before tax of R39 million and revenue of R12 million to the Bank for the period from 1 August 2010 to 31 December 2010. If the acquisition occurred on 1 January 2010, the Bank's revenue would have been R84 million higher and the net profit before tax for the year would have been R70 million higher.

No goodwill resulted from the transaction and the excess of R71 million, together with the gain of R10 million recognised as a result of remeasuring the previously held interest to fair value was realised in the statement of comprehensive income in other operating income. Any transaction costs associated to the acquisition have been expensed when incurred. No contingent liabilities were recognised as a result of the acquisition and no contingent consideration is payable. No identifiable assets were identified of which the fair values could not be reliably measured.

#### 6. ACQUISITIONS AND DISPOSALS OF BUSINESSES (continued)

#### 6.1 Acquisitions during the current year (continued)

Subsequent to the acquisition the debt securities in issue were redeemed in full.

Mortgage loans with a fair value of R4 621 million were acquired as a result of the acquisition. The gross contractual capital amounts receivable were R4 685 million on acquisition date and an impairment provision of R64 million were carried against these loans on acquisition date.

The joint venture agreement was terminated due to the underperformance of the mortgage loan portfolio and consequently the Bank obtained full control of SHL. The underperformance of the mortgage loan portfolio gave rise to the gain on bargain purchase as the joint venture partner were willing to sell its 50% stake at below fair value of the underlying assets and liabilities.

#### 6. ACQUISITIONS AND DISPOSALS OF BUSINESSES (continued)

#### 6.3 Disposal of businesses during the current year

6.3.1 Absa Property Equity Fund operated as a special purpose entity for the investment of community upliftment projects. This fund was previously consolidated under SIC 12 as the Bank held between 93% and 75% of units (depending on the total number of units in issue at a specific point time) and were thereby exposed to the majority of risks and rewards within the fund.

Between January 2010 to August 2010 the Bank disposed some of the units it owned to the extent that its effective holding decreased to below 50% of the units in issue, at which point the fund was deconsolidated due to the Bank not anymore being exposed to the majority of the risks and rewards in the fund.

No gain or loss was recognised on deconsolidation of the fund due to the underlying assets being measured at fair value.

The remainder of the investment retained after deconsolidation was disposed during September 2010 and October 2010.

## Notes

<sup>1</sup>During the previous year, the Bank sold contractual rights it had generated in Ambit Management Services (Proprietary) Limited. The company was dormant and consequently the goodwill previously recognised on this investment has been written off.

<sup>2</sup>During the previous year, indications existed that the carrying amount of the investments in associates, that arose as a result of client defaults on single stock futures within Absa Capital, would not be recoverable. The recoverable amount is the fair value less cost to sell and was based on the Bank's best estimate of the price the Bank would achieve in an arm's length sale transaction of these investments. These investments have consequently been impaired in the current and previous years

#### Basis of presentation and changes in accounting policies

Absa Bank Limited is a company domiciled in South Africa. Its registered office is the 3rd floor, Absa Towers East, 170 Main Street Johannesburg, 2001.

The Bank's condensed results have been prepared in accordance with the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards (IFRS) and contain the information required by International Accounting Standard (IAS) 34.

The accounting policies applied in preparing the financial results for the year ended 31 December 2010 are the same as the accounting policies in place for the year ended 31 December 2009, with the exceptions mentioned below.

Revised IFRS 3 - Business Combinations affects acquisitions that are achieved in stages and acquisitions where less than 100% of the equity is acquired. In addition, all acquisition-related costs are expensed. The revised IFRS 3 has been applied prospectively to all business combinations from 1 January 2010. The impact of this amendment on the Bank was not significant during the year under review.

Revised IAS 27 - Consolidated and Separate Financial Statements specifies that changes in a parent's ownership interest in a subsidiary that does not result in the loss of control must be accounted for as equity transactions. The requirements of IAS 27 have been applied prospectively to transactions with non-controlling interests from 1 January 2010. The impact of this amendment on the Bank was not significant during the year under review.

#### Reclassifications

The Bank has reassessed its counterparty risk for certain scrip lending and other trading activities. This was done due to a change in interpretation of customer agreements as well as a reconsideration of the risk inherent in some of its trading portfolios. This resulted in the Bank revisiting the principles of netting down or grossing up some transactions to be in line with the risks inherent to the transactions. It was concluded that the reclassification would better reflect the risk that the Bank has to manage on the different statement of financial position lines and that this disclosure would enhance disclosure and provide users of the financial statements with more relevant information. This disclosure is now also aligned with industry practice. This has resulted in comparatives being reclassified for December 2009 and December 2008.
