“Index Component Exchange” means in respect of each component security of the Index (each “a Component Security”), the principal securities exchange on which such Component Security is principally traded, as determined by the Calculation Agent.

“Index Valuation Time” means for the purposes of determining whether a Market Disruption Event has occurred: i) in respect of any Component Security, the Scheduled Closing Time of the relevant Index Component Exchange; and ii) in respect of any options contracts or futures contracts referencing the Index, the close of trading on the related securities exchange; and iii) in all other circumstances, the time at which the official closing level of the Index is calculated and published by the Index Sponsor.
